EDUCATION

University of Houston-Clear Lake

Houston, TX

Bachelor of Science in Computer Science, GPA: 3.7

Expected December 2026

- **Relevant coursework:** Programming Language Concepts, Advanced Data Structures and Algorithms, Computer Organization and Architecture, Software Engineering, Modern Software Design Development, Machine Learning

EXPERIENCE

Software Engineer Intern

May 2026 – Aug. 2026

Cisco Systems

Austin, TX

- Developed core features for **Cisco Identity Intelligence**, a security platform serving **1,000+ enterprise clients**, detecting **risky access patterns**, **privilege exposure**, and **attack paths** across human and non-human identities
- Engineered an **identity-threat detection workflow** using **TypeScript**, **Node.js**, **Snowflake**, and **OpenSearch**, integrating **HR lifecycle data** with **cross-platform access logs** to **flag account access** post-termination, **identifying 100,000+ at-risk accounts** and **saving thousands in persisting service access costs** for clients
- Built **full-stack product capabilities** using **React**, **GraphQL**, and **AWS serverless infrastructure**, transforming **backend security findings** into **responsive dashboards** that streamlined investigation workflows for analysts

Full-stack Open-Source Development Volunteer

June 2025 – Present

Open Austin

Austin, TX

- **Optimized database queries** with **Redis caching** for a property ownership tracking platform, **reducing load times by 45%** while processing 25,000+ ownership records
- Created an **interactive transit mapping platform** using **Vue.js**, **Express.js**, and **MongoDB**, integrating Google Maps API and GTFS data to visualize points of interest along 50+ bus routes, serving **100+ monthly users**

PROJECTS

CaduWard: Explainable EHR Compliance Tool | *Next.js, PostgreSQL, Drizzle ORM, Claude API* Aug. 2026

- Built a **full-stack access-monitoring system** that scans hospital record access logs and **flags suspicious activity** via rule-based checks and **pgvector similarity search** across **100,000+ synthetic patient records**
- Integrated the **Claude API** to auto-generate plain-English explanations for every flagged event and shipped a **real-time alerts dashboard with Socket.IO**, achieving **94% precision** against seeded test data

Spring Boot Book Management REST API | *Java, Spring Boot, Spring Data JPA, JUnit, Mockito* May 2025

- Built a production-ready RESTful Book Management API with **Spring Boot**, implementing **paginated** and **sortable CRUD endpoints** with **exception handling** and **data validation** following REST best practices
- Achieved **100% unit and integration test coverage** using **JUnit** and **Mockito**, and enforced a layered architecture with **Spring Data JPA** to ensure maintainable and reliable API endpoints

AWARDS & LEADERSHIP

Society for Hispanic Professional Engineers | *Vice President*

Jan. 2026 – Present

- **Co-founded** first UHCL SHPE chapter, driving chapter **recruitment** and coordinating regional **meetings**

NSF S-STEM Scholarship | *Recipient & Conference Speaker*

Fall 2023 – Present

- Recurring recipient with **high GPA requirement**; **nominated** speaker to represent school at NSF conference

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C/C++, SQL (PostgreSQL, MySQL), HTML/CSS

Frameworks: React, Next.js, Node.js, Express.js, Vue.js, Spring Boot, GraphQL, Socket.IO

Developer Tools: Git, Docker, AWS, CI/CD, Linux, Claude Code, Codex, Cursor, Snowflake, OpenSearch

Libraries: pandas, NumPy, Scikit-Learn, PyTorch, Prisma, Drizzle ORM, JUnit, Mockito
